Pearl White Passion

Introduction

Personalised luxury - The Luxura V₁₀ optimizes the familiar standards and is setting new standards in the solarium market. It represents the impressive highlight of the premium class, with breath-taking elegance, remarkable new features and customer-oriented technology. It is the solarium experience for every connoisseur who orients his or her personal requirements to the optimum.

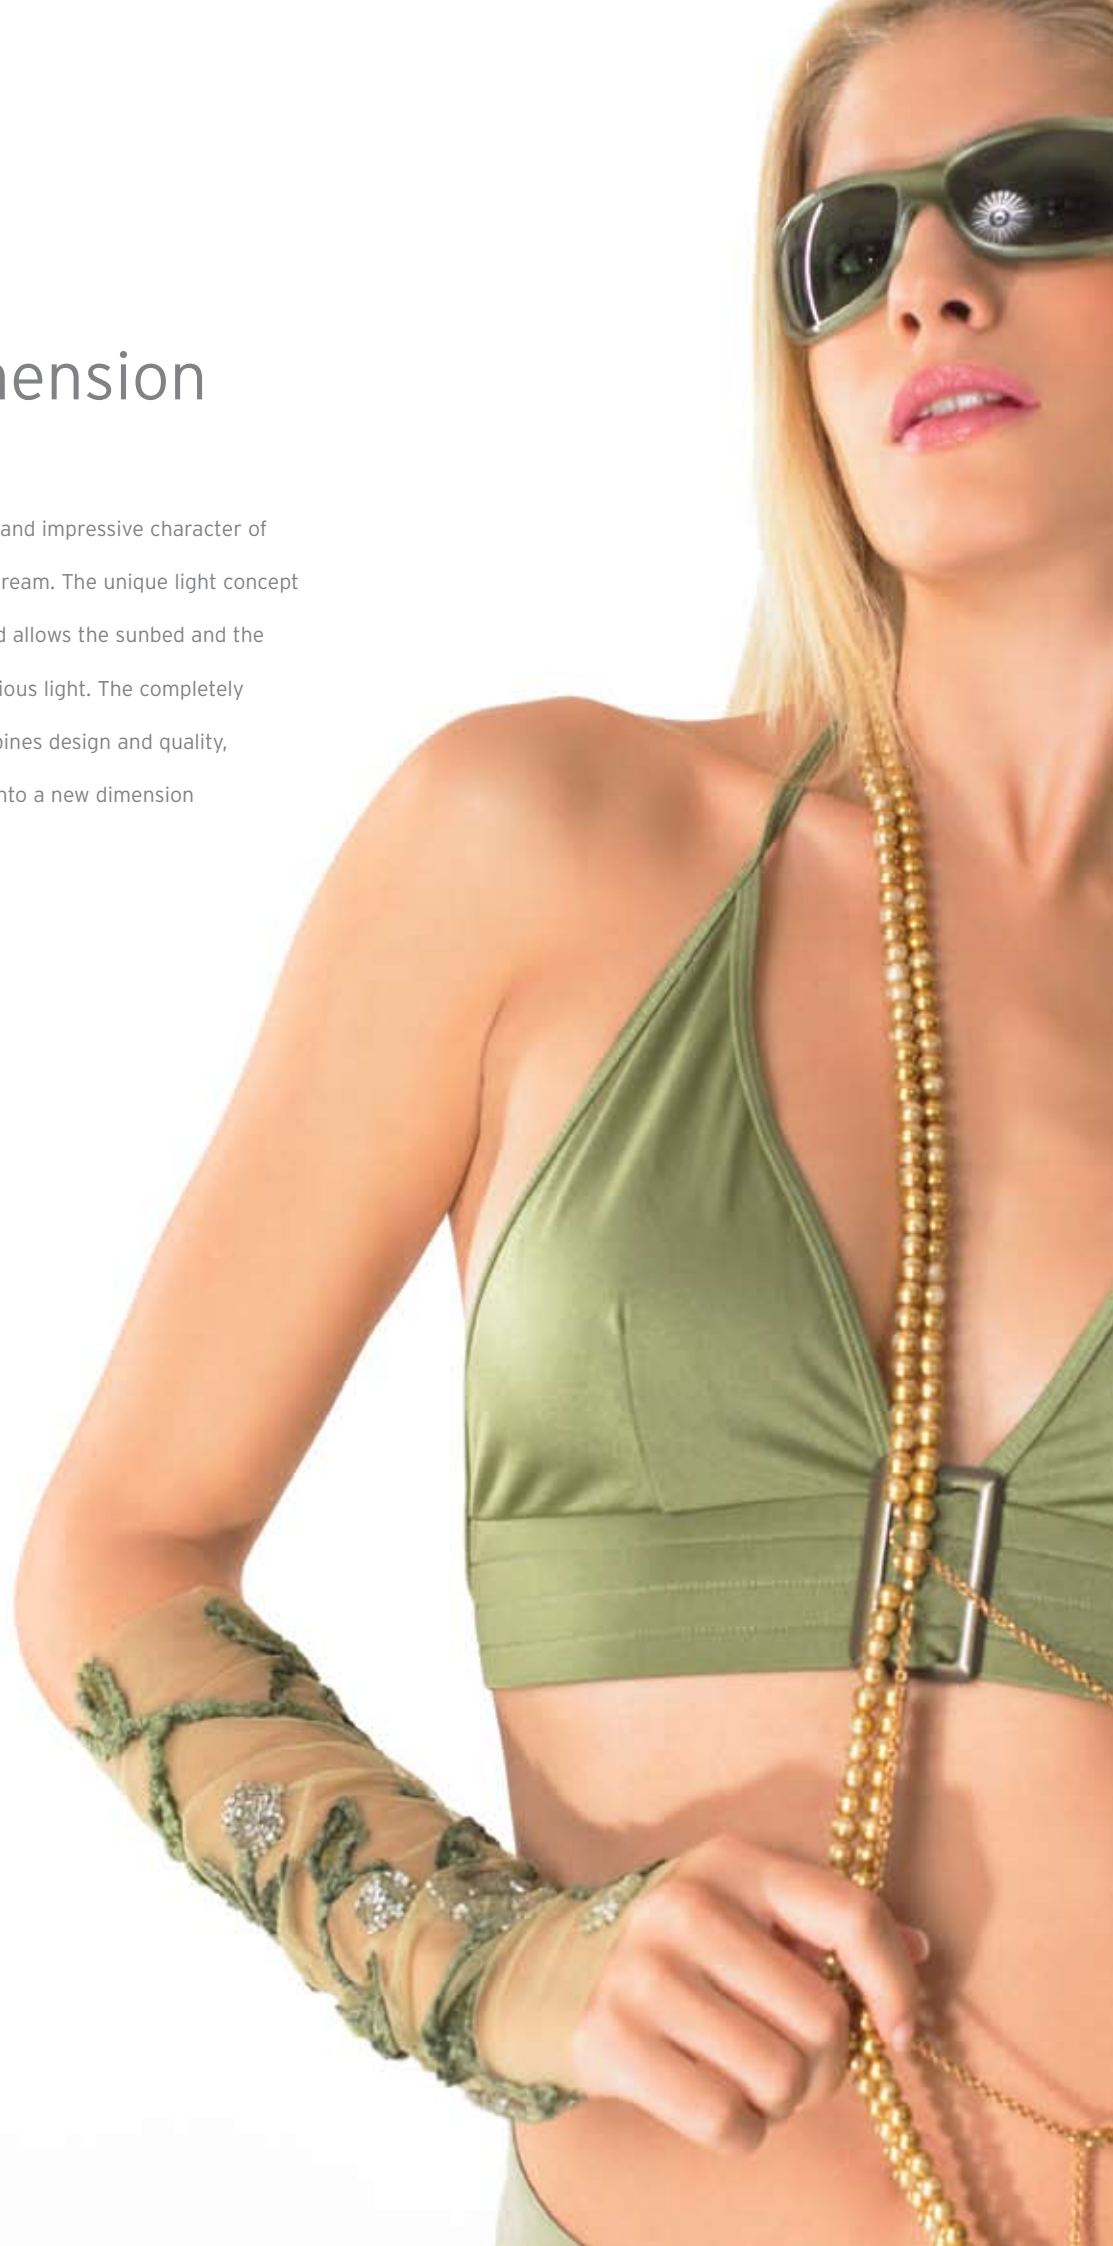

Pearl White Romance

A New Dimension

See it and enjoy it. The spacious and impressive character of the Luxura V₁₀ will invite you to dream. The unique light concept inspires a sense of well-being and allows the sunbed and the solarium studio to appear in glorious light. The completely formed design of the doors combines design and quality, inviting the user to enter. Enter into a new dimension of relaxation.

Light Impressions

Attract glances; look attractive. The Luxura V₁₀ does not represent the ultimate advantage of seriously considered design merely for aesthetes. The unique decorative light concept in the upper front, the door handle and the base present themselves in a convincing way, thus demonstrating an extra dimension of technical and qualitative innovation. Whether its Royal Red, Pearl White Cool, Pearl White Romance or Pearl White Passion - each of the variations let the Luxura V₁₀ shine in a unique luminous elegance way, making it extremely visually attractive.

The attractive lighting concept with the integrated decorative lights ensures an additional sense of well-being before the tanning session, giving the unit an attractive appearance, even in stand-by mode.

 Pearl White Cool

Points of contact

Class is shown in the detail. Ergonomic action is demonstrated at both doors. Their exclusive design will fulfil every wish. They can be opened simultaneously and effortlessly, with the help of the impressive handle, and will seem to be as light as a feather, in spite of their size. A dimension full of luxury and security, seeking its equivalent in polished spatial design, will be revealed to the user. Experience limitless freedom with the Luxura V₁₀.

Positioning extras

A correct position is the decisive factor for an optimum tanning experience. It is therefore only logical that Hapro offers a lift positioning system as an extra option for the Luxura V₁₀, as one of its special features. This raises the user to the perfect position, placing the whole body perfectly for tanning. It is an uplifting extra. At the same time, the anti-slip base and the two ergonomically shaped handles make vertical tanning a pleasant experience. Rise to it; into a new league of the premium class.

This positioning extra ensures an optimum UV radiation, because it will locate small and medium-sized users correctly to the tubes. Therefore, both the face and the feet will be perfectly positioned during the tanning session.

The logo consists of a stylized 'V' shape above the number '10', both in a metallic, reflective font.

Stay cool

Luxury class tanning. In addition to the two-stage, controllable body cooling the Luxura V₁₀ incorporates the Qsens concept. Its four Qsens nozzles optimally positioned in the unit, deliver a naturally refreshing spray giving optimal body cooling. They refresh the skin, thus ensuring that the user will achieve a completely new body consciousness, apart from a perfect tan. Incredible? Convince yourself.

A completely natural cooling experience. Refreshing water is sprayed into the tanning unit via the ventilation system.

Just for Me

Allow yourself to be completely indulged. The Luxura V₁₀ is equipped with a string of extras that will aid the user to achieve true relaxation during the tanning session. SoundAround and MyMP3 ensure that the advantage of individuality and a pure sound sensation will be provided under all circumstances, thanks to the two integrated loudspeakers and the subwoofer. SmartVoice offers supporting information on operating the equipment and rounds off the impression of the culmination of a unique, comfortable ambience in this way, together with the aromatic scents of Xsens. The Luxura V₁₀ - the all-round package for relaxation.

Xsens will spread a scent (Citrus, Ocean or Exotic) into the interior of the Luxura very delicately, as required, ensuring a comfortable atmosphere in the equipment and the tanning room.

A friendly voice will accompany the users and guides them through the device functions with supporting information.

The guest can log in his or her MP3 player and experience an individual sound, in addition to the four, freely selectable, music channels from the SoundAround package.

Integrated loudspeakers in the ceiling and a perfectly hidden subwoofer will provide an astonishing sound experience.

Points of light

The diversity of the equipping of the versions of the Luxura V₁₀ will fulfil every wish.

The versions with the 2-meter long XL tubes ensure the optimal tanning of the whole body.

The XLc tube versions are equipped additionally with an integrated pink tanning devices for the face, providing a completely new tanning dimension. The Luxura V₁₀ in the SLi version will offer the highest tanning efficiency to the user. It gleams with 2x2 high pressure facials in the doors; It comes standard in blue with a SPS filter or optional with HPS mirror filter (High Power System), as preferred, for an even better appearance, higher efficiency and stronger direct pigmentation. It is unique.

*optional

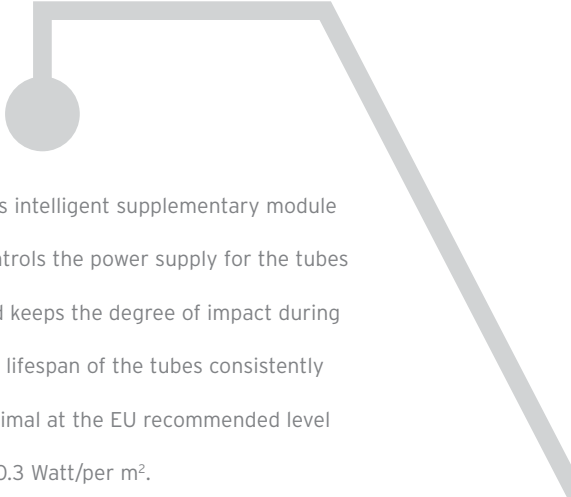

Two-meter long tubes in XL format guarantee the complete overall tanning of the whole body.

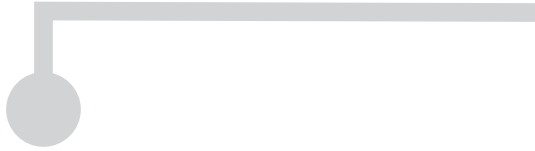

High Power System: Special filter for SLi face tanner. For higher efficiency, direct pigmentation, and a visual mirror effect.

This intelligent supplementary module controls the power supply for the tubes and keeps the degree of impact during the lifespan of the tubes consistently optimal at the EU recommended level of 0.3 Watt/per m².

If the tanning bed is later exported as a used consumer appliance to a market without 0.3 standards, the IP Control can be reprogrammed to the value permitted there.

In this way, the IP Control can reduce the energy output of the tubes by 25 %, and moreover increase their lifespan by up to 1,500 hours. Result: lower operational costs.

CHIP Tuning

Intelligent Power Control - greater energy efficiency

Breathing

With the central air exhaust at the rear of the unit, the Luxura V₁₀ shows how flexible and adaptable it is. The exhaust can be conveyed, depending on the room, to the back behind the unit or to the ceiling. This allows air to flow. This way the air can be conducted directly to the back or upward. The Luxura V₁₀ - greater luxury is not possible.

Maintenance to go

Above all, a premium product is recognized behind the scenes. Cleaning and maintenance will be carried out through the easily accessible maintenance door in the interior of the Luxura V₁₀. The sunbed is therefore distinguished by clarity and easy maintenance, also Xsens or Qsens substances can be topped up simply and quickly. This simple management ensures that troublesome tasks will become a childishly simple pleasure.
