Love at first sight

Lovely, lovelier V_7 - the new Luxura V_7 product concept has set new standards in the premium class of sun showers. With intelligent details, new features, more customer-oriented technology and an impressive design, this Luxura V_7 occupies a completely new segment in the tanning market. It is not just the look of the new Luxura V_7 that has such an effect, the technology and performance are also very persuasive. Sun showers with that little bit extra - this is the Luxura V_7 of the new generation.

Power of attraction

Capture looks and captivate – awaken and fulfil wishes. The incomparable DecoLight concept of the Luxura V₇ unites aesthetics with technology and presents sun shower and tanning studio in a magically alluring blaze of lights.

The double doors with the illuminated handles are simply futuristic. Inside, the power of attraction in the light effects continues with an optimally placed decorative light in the ceiling and ensures an additional sense of well being in the new Luxura V₇. In order to reduce energy use, the decorative light can also be switched off.

The attractive lighting concept with integrated DecoLight provides an extra sense of wellbeing during the tanning session. And the sunbed will look appealing at all times – even in stand-by mode.

Your entrance

The new Luxura V₇ is a true entertainer. Hapro raised the floor - also considered the platform for the sun worshipper - a few centimetres. This has the advantage that tanning is, literally, head to toe. Inside the Luxura V₇ the user can expect the finest enjoyment in music. The integrated loudspeaker ensures absolute relaxation and also transforms the tanning experience into true acoustic respite.

Motivational design

The innovative Luxura V₇ concept does not start merely when an extraordinary tanning experience commences, but also in a very special space dimension. The sun shower has an exceptional double-door system with optimal use of space. Both doors invite the user into this amazing sun shower and the illuminated handles underscore the amazing design of the Luxura V₇. You can achieve the greatest desired efficiency with the fully integratable cabin, with which you produce a complete stand-alone solution.

The new Luxura V₇ - a fully considered concept!

Sunrise

Simple and orderly - The digital display on the Luxura V₇ is very easy to use, as it involves just a simple touch. The fingertip operation makes possible the immediate control over every single adjustable option. The user is free to try out every option for an individual tanning experience. Digital timer display, 2-step adjustable body cooling system, Xsens Aroma option* - here the customer can both wind down and be king.

True size

The new Luxura V₇ light concept provides 48 tubes for first-class tanning. The 2-metre long XL or XLc tubes - for that distinctive UVB tanning in the facial area - cosset the tanner according to all the rules of the art of Luxura and guarantee an even, intense tan all over the body. The centrally positioned fan creates pleasant air circulation and ensures a comfortable climate inside the cabin. The two-step adjustable body cooling system brings a Caribbean feeling to the skin. The Luxura V₇ shows once again what connoisseurs have already appreciated for a long time: Luxura puts tanning guests in a good light.
